THE 5 FINGER QUICK TINE/STANDARD REPLACEMENT TINE

The 5 Finger Quick Tine is an upgraded aftermarket replacement tine designed for Mac-Don and John Deere Headers. This aftermarket replacement tine was designed to turn your factory tine into a high-performance tine that helps better gather short or sparse crops. It easily slips over the existing finger attaching directly to the bar. Its unique 5 finger design aids in feeding short or specialty crops more consistently and evenly. Designed for use in Soybeans, Wheat, Canola, Chickpeas, Lupins, and Flax. Our quick attach design easily slips over the existing finger quickly and securely. For best results the Bat Wing is designed for use on a minimum of every 3rd finger.

COMPATIBLE WITH

- John Deere 5 Finger Quick Tine/Standard Replacement Tine - Designed to fit over John Deere Header Models, 630FD, 635FD, 640FD, 645FD, 730FD, 735FD, 740FD, 745FD. Serial # 785,000 and above.

  THE 5 Finger Quick Tine IS DESIGNED FOR A SNUG FIT SO IT DOES NOT FALL OFF DURING FIELD OPERATIONS.

INSTRUCTIONS – JOHN DEERE STYLE

1. Install the 5 Finger tine over your existing finger.

**Flip Over Reel version shown here. The Level II version installs using the same method.*

2. The easiest way to install the 5 finger tine is to use a rubber mallet/soft hammer and generously “hit” the bottom of the part until it securely clips over the top.

- Another Option for installation is to grab the 5 finger tine with both hands and quickly “jerk or pull” the part upward until secure.

**Flip Over Reel version shown here. The Level II version installs using the same method.*

3. Final product is shown securely wrapping around the pipe and existing finger.

- For Removal firmly grasp the 5 finger tine with both hands and “jerk/pull” downward removing the part.

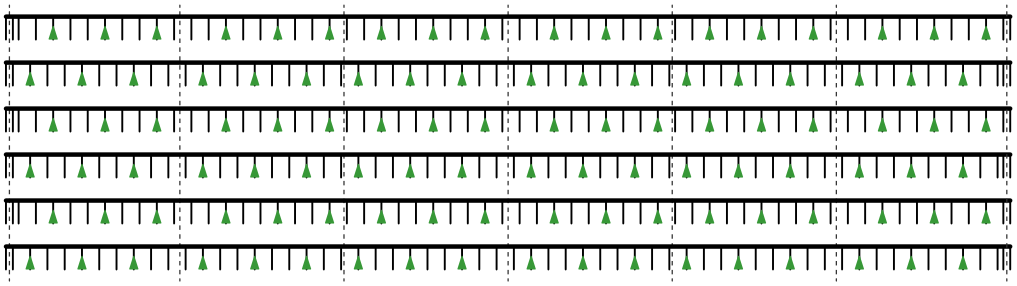

**Flip Over Reel version shown here. The Level II version installs using the same method*

Recommended Installation Patterns:

We recommend installing one 5 finger tine on every third factory tine. Alternate the starting position on each reel to stagger the 5 finger tines.
