

AgSolutions Ear Savers

MOUNTING INSTRUCTIONS

PRODUCT DESCRIPTION

Ear Saver, A thicker stronger rubber "like" replacement part that works like a gate staying rigid keeping corn ears inside the gathering chains once the stalk passes through the Ear Saver it will then prevent corn ears from sliding onto the ground.

1. Always be sure header is in lock or safe position before working under header.
2. To mount AgSolutions Ear Savers, simply replace the combine's existing ear savers and attach the new AgSolutions Ear Savers using the existing bolts. If the bolts are worn or the threads are damaged, replace them.
3. If your header does not have existing ear savers simply position them on the header snouts as shown.
