

## **AgSolutions SKID PLATE**

### **MOUNTING INSTRUCTIONS**

#### PRODUCT DESCRIPTION

Practical and efficient. The skid plate is used to replace your existing 600 series platforms will go directly over existing holes with ease, resists friction that causes dragging and build up.

Saving time and money.

---

1. Always be sure header is in lock or safe position before working under header.
2. Using a Drill and bit, drill out the existing rivets on the platform that was holding on the old skid plate.
3. Clear any other debris from the area then hold the AgSolutions replacement skid plate over the replacement area one at a time using the hardware provided to hammer all rivets in until the rivets are flush with the part.
